**PRESS RELEASE 12/8/17**

**alfa CTP and #1 Network announce distribution alliance**

CHELMSFORD MA: **alfa CTP** is very pleased to announce that it has reached an agreement with the **#1 Network** to distribute its line of CTP devices through the Network's dealer channel.

The **#1 Network**, based in Effingham, IL is the fulcrum of an 18-strong network of local, regional and independent graphic arts dealers that provide vital product and technical support to the nation's commercial printers. Through this agreement, Network members have access to the *Accelero* range of thermal CTP devices and **alfa's** suite of workflow and RIP solutions.

Mike O'Neal, President of the **#1 Network** said, "The *Accelero* product line is just what our customers need; it offers outstanding price-performance and the overall cost of owning and maintaining these machines is much lower than almost all comparable devices."

The *Accelero* product line offers 4-up, 8-up and VLF products in both manual and fully automated configurations. It support all current thermal plate types, including the latest "develop on press" technology.
